

Since 1992

KISCO
NERVES OF STEEL

DOC. NO: KC-01

IMS POLICY

KISCO as a socially responsible company aims to meet and exceed the expectation of its customers, employees and shareholders by focusing on the following objectives:

1. Continual improvement in manufacturing processes with a focus on cost competitiveness enabling Kisco to deliver reliable products.
2. Least environmental impact by preventing pollution through control of resources and effective hazardous waste management.
3. A healthy and safe working environment free from injury and ill health for enabling individuals to contribute efficiently.
4. Compliance with all relevant statutory, regulatory and other requirements related to product, environment, and occupational health & safety.
5. Continual consultation & participation of workers at all applicable levels and functions in development, implementation & operation to provide a safe workplace condition and protection of environment.

All this shall be achieved through continual improvement in all our processes.
